

# Summer Academy 2024

1-ON-1 OR GROUP ONLINE TUTORING FOR K – COLLEGE

Course Catalog 2024

# You can be greater than you think.

That's what we think here at TutorPros.

Our engaging lessons integrate knowledge, reading, and writing thus allowing all students to expand their understanding of the specific subjects they are studying. Our tutoring and test prep programs aim to enhance your student's test-taking skills and confidence. All online, either 1-on-1 with a personal tutor, or in a group tutoring session.

We are staying with our online format. We know some families are unsure if online tutoring can work. We have discovered over the past year that our students get the same great results with our fabulous tutors online as they did in person. Plus, tutoring can be easily squeezed into everyone's busy schedule without worrying about getting from point A to B to C. Still unsure? Give it a try for a couple of sessions and see how easy and effective our online tutoring can be. Great outcomes with less stress is a win/win!

## Contact Us

We can be reached at our email or phone number for complete details on our PSAT/SAT<sup>®</sup>/ACT programs and rates. For 1-on-1 sessions, most students can be scheduled with a tutor within one week.

### Allen, Texas Location

Director: Robyn Mead

## Payment Options

Credit card authorization or post-dated checks for all installments must be received when enrolling. We also accept Zelle at 972-359-0222 and Venmo @tutorpros

Your grades matter more than ever.

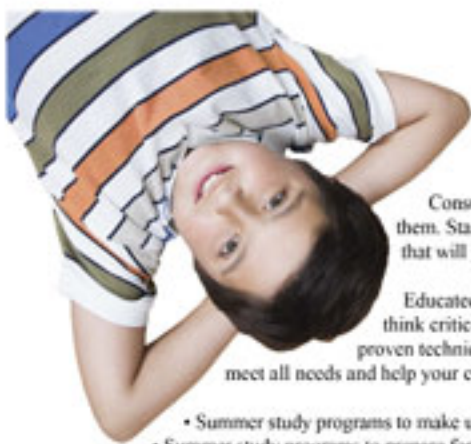

Better scores, and better grades give you more choices when it comes to college opportunities: more colleges will admit you, invite you into their honors program, or offer you scholarship money. Be ready! With experienced teachers as tutors, we can help raise your grade in Chemistry or Algebra with just one tutoring session a week. Turn your C into a B, or your B into an A. Make your first report card of the year, and everyone after that, one to be proud of!

## Online PSAT/SAT<sup>®</sup>/ACT Test Prep Programs

We offer a variety of test prep programs. Our creative teachers developed curriculum to both teach the test and develop a student's day-of-test skills. We can help your high school student get ahead and do their personal best. We also offer test prep for the STAAR test.

Course Catalog

# K - 6th Grade

Consult with us about a tutoring plan for your child. One that grows with them. Start instilling a love of reading, math, science, and learning in general, that will get them to the top of their class. From preschool through college.

Educated students are well-read, proficient in math and writing, and able to think critically. We have developed programs using award-winning books and proven techniques to help your child excel. TutorPros has professional tutors to meet all needs and help your child reach their potential.

- Summer study programs to make up for the last school year
- Summer study programs to prepare for next grade
- Organization and time management skills
- Accuracy and speed improvement
- Study skills and test taking skills
- Math skills and math problem solving
- Reading and writing skills development
- Motivation and enrichment programs

I'm glad I get to relax at home while I get ahead for school.

# Teacher Led Test Prep

## An ACT or SAT® class is a smart investment.

Studies repeatedly show that excellent SAT/ACT prep classes dramatically improve scores. Getting a great score can really pay off in the long run – choice of college, scholarships, future job opportunities, higher salaries. Our students often report that their increased SAT/ACT score earned them tens of thousands in scholarship money. Take advantage of our resources, years of experience with this test, and our test-taking strategies, to get results for your student.

## TutorPros has college entrance exams covered.

From simple review to in-depth study, TutorPros

your individual student. They can focus on one subject, study alone or in a small group, and take SAT classes year-round if need be, all online. We can also help your student with organization tips, study skills, reading comprehension, and note-taking, as well as confidence building to ensure their success on the PSAT/SAT/ACT or even NMSQT, THEA and others.

## Our formula for achieving high scores.

Professional educators designed our SAT test prep curriculum. The math section was designed by an award-winning teacher and test-taking expert, who has taught SAT classes with us for many years. Only experienced educators teach our classes, most with a masters degree or beyond. Our unique program goes beyond typical SAT classes, exposing students to a wider variety of reading material.

## Developing goals and tracking progress.

Individual evaluations allow us to track your student's progress and develop a study strategy based on their individual needs. We provide the resources and direction for your student's individual goals and steer them toward college entrance exam test success.

Think  
you can beat  
the SAT®  
this year?

## Summer SAT and ACT Prep Sessions:

Our award-winning test prep program has a teacher led workshop with challenging lessons. Class includes online class time, free practice tests, book, and additional online homework program with videos.
